

**“We’re Rebuilding a
Neighborhood with Help
from the Port Authority.”**

Over the past few years, the Fairfax Renaissance Development Corp. has assisted in building retail facilities at Church Square. We’ve also partnered in developing more than 150 housing units in the neighborhood.

Now, the Port Authority’s Development Finance Group is helping us assemble 14 acres on Quincy Avenue. The future industrial park will be home to several manufacturers that will bring more than 250 jobs into the neighborhood.

The **Development Finance Group** is **our independent lender.**
